VISION

The University is committed to the cause and promotion of academic excellence. The University has an agenda of tapping and developing human resource in tune with the changing times. The University also has plans to reach out to the industrial sector in and around its jurisdictional area.

MISSION

- *Production, dissemination and advancement of knowledge through scientific methods using latest technology.*
- *Harnessing human resources for the local people and at the state and national levels.*
- *Involving the faculty and the students in community development projects through extension programmes.*
- *Establishing liaison with the industry through training of students as trainees during their study period.*

The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC.

2.12. How does IQAC Contribute/Monitor/Evaluate the Teaching & Learning processes:

Students were made to come to classes and required to put minimum of 75% of attendance to become eligible for writing end semester examinations. For this purpose open forums and other programmes periodically conducted. The outcome of this exercise is measured by maintaining of records of their performance in class rooms hourly attendance statement supplemented by biometric attendance. For every subject on an average 60 hours of teaching required as prescribed by curriculum design. By the use of time table (Hourly distributed workload of teachers) periodical (Monthly) reviews were conducted and progress of students evaluated. Only after this first and second internal assessment tests were conducted. Final end semester examinations were conducted only

after conduct of 60 hours of teaching. The learning progress of students was evaluated in terms of internal assessment and every student of the class was given feed back of the teachers about weaknesses and strengths. They were properly advised where ever necessary to improve. At the end of the semester students feedback is collected and analysed. The inferences drawn in analysis are circulated to all the teachers.

3. Research, Consultancy and Extension

3.1 Initiatives of the IQAC in Sensitizing/Promoting Research Climate in the institution

Teachers from all the faculties encouraged to do research. Teachers without Ph.D. are motivated to take admission in Ph.D. programme to complete at the earliest. Accordingly they are encouraged by leave availment. The Ph.D. programme initiated in the year 2013, in this regard arrangements are on to issue notification for admission into Ph.D. programme. Already many teachers are actively engaged in the research activities but this activity definitely motivates the teachers. It is expected to see good results in the years to come.

A collaborative activity with District Administration was initiated under which all the teachers from various faculties identified relevant social issues by coordination with district administration it is proposed to make the study in the villages as part of their research activity. In addition, this is supplemented by rural immersion/engagement of students is also initiated. This action will be giving results by end of the year 2018-19.

Students told to stay focused on studies

24/7 engagement helps: VC of MGU

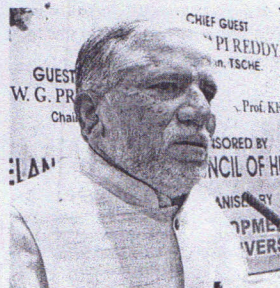

STAFF REPORTER
NALGONDA

"Show me a student who achieved something by slogging, or by participating in congregations, they are only for politicians," Mahatma Gandhi University Vice Chancellor Altaf Khaja Hussain told his students here on Tuesday.

Instead, several students' problems could be solved by interacting with elders, he suggested. Speaking at the inaugural of a workshop on Research Methodology for students at the University, Professor Khaja Hussain said attendance and 24/7 engagement of students was the only formula for good results.

"Earlier governments did not impose such conditions, but this government is doing it with an aim to raise the standards of education," he said.

Telangana State Council of Higher Education Chairman T. Papi Reddy, who was

Vice Chancellor of Mahatma Gandhi University Altaf Khaja Hussain.

present, observed that the "collapsing state of education system was a result of the unethical practices – manipulating attendance, seats, and examinations by money – by private educational institutions."

Appreciating the University efforts in ensuring attendance, Professor Papi Reddy said MGU was the only one in the State that is strictly monitoring attendance of students and teachers.

Rural Community Engagement makes MGU stand apart

Biometric attendance compulsory for students and staff

Student community is always a good community, as they seek to learn new things, but should be aware of fringe sections, even among teachers, says Mahatma Gandhi University Vice-Chancellor Khaja Altaf Hussain.

In an interview with *The Hindu*, Prof. Altaf Hussain said he persuades his students and staff to achieve more by 'keeping themselves busy'.

Academic excellence as the motto, the Mahatma Gandhi University at Nalgonda was established in 2007. Presently there are 140 colleges affiliated to the university and offers 18 courses.

With a strict policy, biometric attendance was made compulsory for students and staff, and nearly 200 students were not allowed to appear for the exams for want of attendance last year. This he says, "Will help them learn and develop skills, also ensuring judicious use of fee reimbursements and scholarships."

Of late, the University has

Mahatma Gandhi University Vice-Chancellor Khaja Altaf Hussain.

been signing MoUs with institutes of varied academic disciplines. Currently, it has agreements with Jawaharlal Nehru Architecture and Fine Arts University, National Council of Rural Institutes and Potti Sreeramulu Telugu University at Hyderabad, NIPER at Mohali and the JNU, Delhi.

To coach students to practice and demonstrate skills in rural community, the University recently re-designed its curriculum to add a compulsory 'Rural Community Engagement' module for all the UG and PG students.

About 75 CCTVs on the campus, a new library with digitization facility, upgraded laboratory and sports equipment are added infrastructure.

However, at one point, the Vice-Chancellor begins to feel the pinch: Job placements, regular staff, and performance of engineering courses. "Job melas are being conducted and the numbers are on the rise, and I am awaiting sanction of regular appointees," he says.

"We have about 90 teachers, both permanent and academic consultants and I ensure no classroom is without a teacher," he affirms.

A gold medalist in Physics, Prof. Altaf Hussain from Atmakur mandal in Warangal has around 40 published research papers and three books in his more than three-decade career.

He completes his first year in the office and his report card by the students says, "The University certainly took a shape after he came," to which he says (smilingly), "Students are the best judges of teachers!"
